

VENZA MEDIA FILTERS

VENZA Water offers a wide range of filters for wide ranging applications to meet specific process requirements.

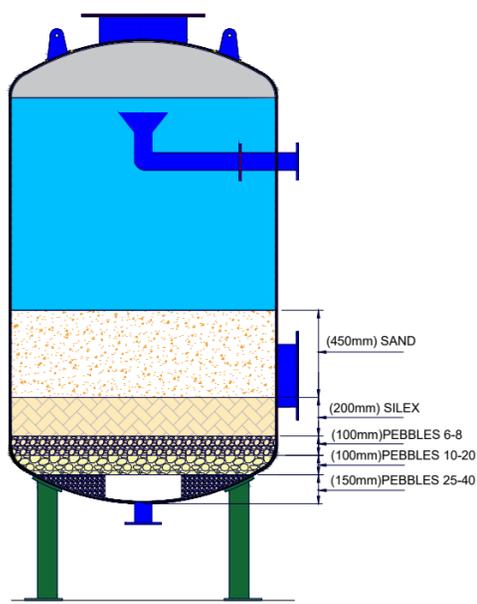

CAPACITY

- FILTRATION VELOCITY – 10-24 M³/HR/M²
- FILTRATION CAPACITY- 1 M³/HR – 300 M³/HR
- FILTRATION RATING – UPTO 20 MICRONS
- FILTRATION EFFICIENCY – UP TO 5 PPM SUSPENDED SOLIDS

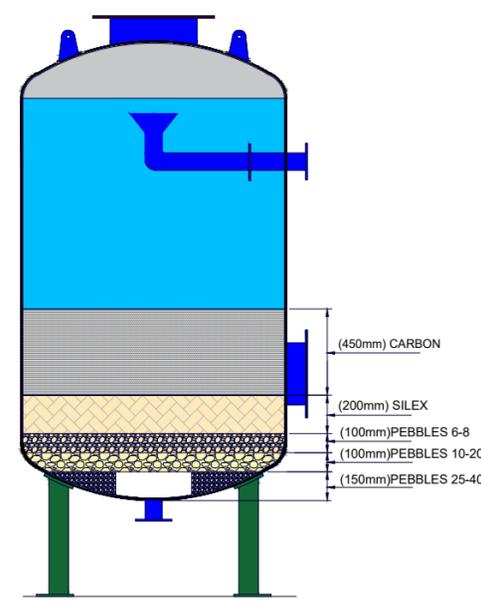

UP TO 5 NTU OF TURBIDITY

DUAL MEDIA FILTER

PRESSURE SAND FILTER

ACTIVATED CARBON FILTER

FEATURES

- **Modular Design**
- **Pre-Fabricated – Factory Tested**
- **Scalable To Any Size To Increase Capacity**
- **Retrofit**
- **Durable**
- **Electrical Control Panel/Plc Controller**
/Microprocessor Based
- **Material Of Construction (As Per Requirement)**
 - ✓ **Mild Steel Stainless Steel|FRP**
- **Lining Or Coating**
 - **Epoxy|FRP|Rubber Lined**

APPLICATION

- **Turbidity And Total Suspended Solid Removals**
- **Drinking Water Treatment**
- **Pre Treatment To R.O And Desalination Plants**
- **Tertiary Treatment For STP/ETP**
- **Swimming Pool Filtration**
- **Process Water Treatment**
